

URMOSES @ LA28: THE FUTURE OF INCLUSIVE URBAN MOBILITY

Autonomous Ecosystem for the 62+ Demographic – Engineered for Los Angeles

URMOSES
URBANE MOBILITÄT FÜR SENIOREN 62+

SOLVING THE "SILVER TSUNAMI" LAST-MILE GAP

Key Points:

- **Demographic Shift:** By 2028, Los Angeles will face an unprecedented demand for senior-centric transit solutions.
- **The Accessibility Gap:** Traditional public transport often fails the "Last-Mile" for seniors due to physical strain and distance.
- **Economic Impact:** Inefficient senior mobility leads to social isolation and increased healthcare logistics costs.
- **The Solution:** URMOSSES acts as the autonomous bridge between the doorstep and the regional transit hub.

HUMAN-CENTRIC TECH: RADICALLY SIMPLE, EXCEPTIONALLY SAFE

Key Points:

- **One_Click_Interface:** Zero-learning-curve UI designed specifically for senior cognitive and physical requirements.
- **All-Weather Protection:** Ensuring year-round dignity and comfort in the Californian urban climate.
- **ADA_Compliant_Design:** Physical accessibility built-in, meeting all Americans with Disabilities Act requirements for vehicle entry and seating.

NATIVE INTEGRATION INTO LADOT INFRASTRUCTURE

Key Points:

- **MDS_2.0_Compliance:** Full telemetry and operational data exchange via Agency & Provider APIs for real-time fleet management.
- **C_V2X_Communication:** Dedicated Short-Range and Cellular V2X capabilities to interact with LA's Smart City traffic signals.
- **Global_Interoperability:** Validating the synergy between EU engineering precision and US regulatory mandates.

RESILIENCE: SAFETY THAT WORKS WITHOUT THE CLOUD

Key Points:

- **L1_Safety_Core:** Deterministic collision avoidance and obstacle detection (Edge-AI) that remains fully operational even during network outages.
- **Forensic_Traceability:** Immutable **AUDIT_LOG** recording to provide transparent data for insurance and NHTSA safety audits.
- **Privacy_by_Design:** CCPA-compliant data handling with a "Sovereign_Connector" for user-controlled data monetization.

FROM MÖNCHENGLADBACH TO LOS ANGELES: LET'S MOVE LA TOGETHER

Call to Action:

- **Pilot Program 2026/27:** Invitation to launch a localized Proof of Concept (PoC) in an LA-based Operational Design Domain.
- **Technical Audit:** We invite LADOT's Bureau of Technology Services for a deep-dive review of our topological ring architecture.
